

Please keep the Telephone Privacy Act as is.....do not take it away. I can actually relax when I come home instead of constantly being interrupted by the telephone only to find it to be someone wanting to sell me something or tell me about a "great deal". I prefer to do my own research on what interests me. If I am interested in a product or service -- I chose to be the one to contact the company....I DO NOT WANT ANY COMPANIES CALLING ME....thank you!
